Introducing the Volvo EX90

Warranty coverage

Should any part of the vehicle require repair or replacement as a result of a manufacturing defect, the part will be repaired or replaced free of charge by any Volvo dealer or an authorised Volvo workshop, regardless of any change of vehicle ownership during the period of warranty.

Vehicle Warranty period

The vehicle warranty starts on the day the new car is delivered to the first retail customer and continues for 2 years with unlimited mileage for Internal combustion engine vehicles & 3 Years with 100,000 km mileage (whichever is earlier) for Battery electric vehicles.

The warranty period for dealer demonstrator vehicles or company cars starts on the day the vehicle is put into service (not the day the vehicle is first sold retail).

VOLVO Accessories Warranty

Warranty Coverage and Period

Any genuine Volvo accessory (excluding gift items) supplied and fitted by a Volvo dealer within 1 month or 1,500 km (whichever comes first) of the new vehicle being put into service will benefit from the same warranty terms and duration as the vehicle warranty.

Corrosion Protection Warranty Coverage

Should any part of the bodywork of the vehicle be perforated by rust corrosion, the panel(s) affected by the perforation will be repaired or replaced by any Volvo dealer or an authorised Volvo workshop, completely free of charge, regardless of any change in vehicle ownership. The term “perforation” means a hole that penetrates the bodywork caused by corrosion from the inside or underside as a result of faulty manufacture or materials.

The corrosion protection warranty is issued on an international basis but national variations may exist.

Corrosion Warranty Period

The corrosion protection warranty begins at the same time as the vehicle warranty and continues for 12 years.
